Emmanuel Centre is a truly unique place which is regularly used for examinations, AGMs or shareholders meetings, training seminars, council meetings, product launches, church gatherings, exhibitions, rallies, presentations, concerts and conferences. The building's traditional charm and character comes with modern facilities and fully integrated in-house audio visual equipment.

Originally built in 1928, this Grade 2 Listed building was designed by the world renowned architect, Sir Herbert Baker, and has a distinctive atmosphere, elegant marble foyer, high vaulted ceilings inscribed with bible inscriptions and huge columns. The main auditorium which seats up to 1,000 is completely circular and supported by 24 pairs of marble columns with natural light that penetrate through a huge glass dome and arched windows, finished off with original polished English Oak panels along the walls.

The impressive main foyer boasts a spectacular domed ceiling, marbled flooring, wide staircases, a prominent overhanging bronze light feature and huge arched windows. All these make for a dramatic entrance.

The conference centre opened in 1997 and has proved a big success, attracting clientele from a wide variety of both commercial and charitable organisations. It offers a competitive yet uncompromising service with added value, affordability and flexibility, all within Central London.

Situated in the heart of Westminster, Emmanuel Centre lies within walking distance of St. James Park & Westminster tube stations, several key bus routes, main line Victoria station and offers plenty of parking for cars and coaches nearby.
